***Learning the  
Dance of Attachment***

**By Holly van Gulden and Charlotte Vick**

*Learning The Dance of Attachment: An Adoptive Parent's Guide to Fostering Healthy Development* was written specifically for adoptive parents. It provides tips to smooth the adoption transition and set realistic expectations. After a child comes home, the *Guide* helps families understand normal developmental milestones and assess their child's history. The *Guide* then provides tools to promote attachment. *Learning the Dance of Attachment* is based on the therapy work of Holly Van Gulden. Ms. Van Gulden, of Adoptive Family Counseling Center, is an internationally known expert on the needs of adopted children. She is an adoptive parent, sister to adopted children, a family counselor, writer, and lecturer. Charlotte Vick, the co-writer of the *Guide*, is the Director of Crossroads WI office and is also an adoptive parent, social worker and attorney.
